

It's Time to See the Bigger Picture

With SpacePole Solutions

Company & Product Overview

Our Purpose & Beliefs

Our Purpose:

We provide our customers with solutions that simplify the implementation and use of technology, through an empowered team and a valued partner network

Our Beliefs:

Strive to be the best

- in quality and customer service, to have a 'can do' attitude and take pride in what we do

Take responsibility for our actions

- be accountable for what we say and do, learn from our mistakes

Act with integrity

- be honest and ethical in our actions and to treat others as we wish to be treated ourselves

Respect our planet

- minimize our impact on the environment and be ethical in our use of resources

Seek opportunities for improvement

- promote a positive, fun environment that embraces learning and change

Our Capabilities:

Flexible core product range

- Modular, configurable, customizable

Agile and Responsive

- In our design, manufacturing, & fulfilment

Skilled in our application areas

- POS, Payment, Self-Service, and Digital Signage

Technical Expertise

- In Engineering, Ergonomics, and Security

The SpacePole Kiosk™ provides a configurable platform for self-service applications. Ideal for self-check-in/check-out, self-ordering, endless aisle, product display & advertising, ticketing, click & collect and many more.

The flexibility to mix and match various components and elements to make a modular, configurable, POS or self-service solution is what makes SpacePole stand out from the rest.

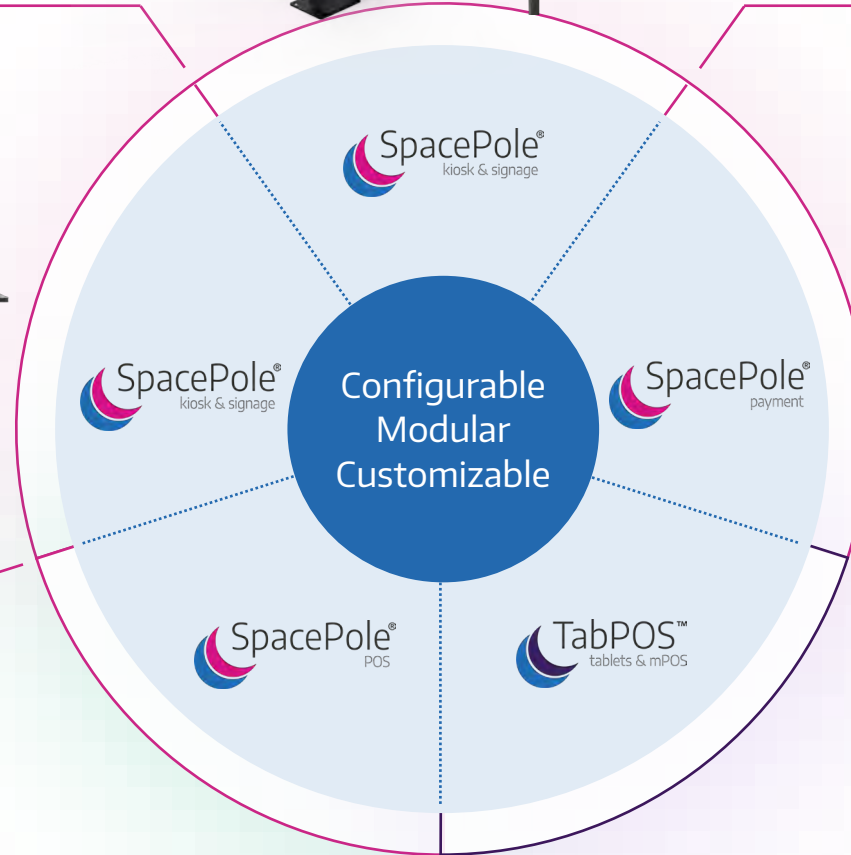

Our range of indoor and outdoor mounts and enclosures simplify the deployment of digital signage and menu board screens.

Whatever type of payment terminal you use, Ergonomic Solutions has trusted, proven mounting solutions for all static and mobile payment applications.

Turn your tablet into a fixed, hybrid or mobile point of sale, information look-up point, or in-store or at table order platform.

SpacePole Self-Checkout Kiosk

Hardware Agnostic, Modular, Configurable, Customizable: cost-effective self-checkout platform designed to create a frictionless experience and accommodate all customers

Screen from 15"-24" portrait or landscape – Can be **tilted**

Up to five internal peripherals printer
(Easy to configure with magnet mounting)

The SCO kiosk can be **counter mounted or freestanding**

Choose between **two versions of Floor Stand** for optimal setup and height

External peripherals options on top or at the sides at different heights ex traffic light, second screen, security camera, hand scanner and payment

Optional shelves (right, left and center) (can be mounted at different heights)

Accessibility options for the SCO kiosk:

- **Audio/nav device support**
- **Tilt and height adjustment options for screen**
- **Tilt and height adjustment options for external payment device**

SpacePole SCO Kiosk

Cost Effective, Flexible, and Accessible

- **Reflecting retail today:** Enhancing the frictionless customer journey and addressing staff shortages
- **Cost effective:** Enables repurposing of existing POS hardware for SCO purposes
- **Flexibility:** Can be adapted to specific store layouts and the final configuration can be decided during installation. It is designed to accommodate the technologies driving the SCOs of the future with frictionless checkout incorporating RFID, cameras, and AI
- **Accessibility for all:** Everybody should have the option to use self-service check-outs
